Set in Concrete

What can an artist do with cement? How can cement be used in jewelry? These artists take this humble material and elevate it to gem-like quality.

Artists' Notebooks

We are offering the actual notebooks of a few working artists. This is where the research happens; these are the originals before the originals. They are complete with personal notes and mistakes, but completely filled with truth.

Water/Light Interface

Artists explore the shadows, structure, emotions, movements, beauty, subtleties, range and expressions of the water around us. Is it Caribbean, North Atlantic, or a swimming hole? Water has personalities as different as you and I.
